**Re: 60-Day Notice of Intent to Sue for Clean Water Act Violations at Ten Cate  
Dyeing & Finishing Plant at 1683 Lawrence Road, Molena, GA 30258 and  
Demand to Abate Nuisance and Trespasses to Parcel Nos. 005007 and 005073**

Dear Ten Cate Protective Fabrics & Royal Ten Cate (USA), Inc.:

Pursuant to Section 505(b) of the Clean Water Act, 33 U.S.C. § 1365(b), and 40 C.F.R. Part 135, Flint Riverkeeper, Inc. (“Riverkeeper”), and J. Michael Cox, Cliff Granville Moore, Shelby C. Moore, and Sean P. Draime (“local property owners”), hereby provide notice of their intent to commence a civil action in U.S. District Court against Southern Mills, Inc. (d/b/a Ten Cate Protective Fabrics) and Royal Ten Cate (USA), Inc. (collectively “Ten Cate”) for violations of the federal Clean Water Act, 33 U.S.C. § 1251 et seq., Georgia Water Quality Control Act, O.C.G.A. § 12-5-20 et seq., and their implementing rules and regulations. These violations

Notice of Intent to Sue Ten Cate Protective Fabrics & Royal Ten Cate (USA), Inc.  
Page Two of Eight  
April 20, 2016

include ongoing unpermitted point source discharges of pollutants from the land application system (“LAS”) at the Ten Cate dyeing and finishing plant at 1683 Lawrence Road, Molena, GA 30258 (“Molena Plant”) into tributaries of the Flint River and adjacent wetlands that are waters of the United States and waters of the State of Georgia. In addition, the local property owners intend to pursue pendent state law claims for pollution of and damage to their properties adjacent to the LAS at the Molena Plant by the illegal discharges.

## I. Parties Providing Notice

This notice is provided by Flint Riverkeeper, Inc. and local property owners J. Michael Cox, Cliff Granville Moore, Shelby C. Moore, and Sean P. Draime.

Flint Riverkeeper’s active membership stands at over 546 families, businesses, and farms accounting for over 2,500 individuals. The mission of the Flint Riverkeeper is to restore and preserve the habitat, water quality and flow of the Flint River for the benefit of current and future generations and dependent wildlife. The address of Flint Riverkeeper is 211 North Jefferson Street, Suite 8, Albany, Georgia 31701. Its Executive Director and Riverkeeper is S. Gordon Rogers, IV and his telephone number is (229) 435-2241. All communications, however, must be directed to undersigned Counsel for Flint Riverkeeper at the contact information below.

J. Michael Cox, Cliff Granville Moore, Shelby C. Moore, and Sean P. Draime are local citizens and residents of Upson County who own properties adjacent to the Molena Plant and its LAS. J. Michael Cox, Cliff Granville Moore, and Shelby C. Moore own Upson County Parcel Nos. 005073 & 00573B, an approximately 58.6-acre parcel and approximately 10-acre parcel, respectively, adjacent to the LAS spray fields at the Molena Plant. Sean P. Draime owns Upson County Parcel No. 005007, an approximately 27.61-acre parcel adjacent to the LAS spray fields at the Molena Plant.

The address of Cliff Granville Moore and Shelby C. Moore is 7277 Crest Highway, Molena, Georgia 30258 and their telephone numbers are (770) 815-1564 and (706) 647-4069, respectively. The address of J. Michael Cox is 1350 Pleasant Ridge Road, Carrollton, Georgia 30117 and his telephone number is (678) 346-6007. The address of Sean P. Draime is 1459 Lawrence Road, Molena, Georgia 30258 and his telephone number is (706) 296-5665. All communications, however, must be directed to undersigned Counsel for these individuals at the contact information below.

## II. Notice of the Violations

### A. Standard Violated and Activity Constituting Violation

Under Section 301(a) of the Clean Water Act (“CWA”), 33 U.S.C. § 1311(a), point source discharges of pollutants into the waters of the United States require a National Pollution Discharge Elimination System (“NPDES”) permit under Section 402 of the CWA.

Notice of Intent to Sue Ten Cate Protective Fabrics & Royal Ten Cate (USA), Inc.  
Page Three of Eight  
April 20, 2016

Ten Cate owns, operates, and directs the operations of the Molena Plant, which discharges its industrial wastewater through a series of spray heads called a land application system (“LAS”). LASs are to provide treatment so that pollutants are removed from wastewater by plants and soil before such wastewater enters waters of the United States. See Ga. Dep’t of Nat. Res., *Guidelines for Slow-Rate Treatment of Wastewater via Spray Irrigation* (July 2010). The LAS Permit No. GAJ0101578 issued by the Georgia Environmental Protection Division to Ten Cate for the LAS at its Molena Plant neither authorizes “direct discharge to surface waters” nor point source discharges of pollutants to waters of the United States.

The irrigated industrial wastewater evaporates and transpires to the atmosphere or enters the groundwater through percolation. Organic constituents in the wastewater are stabilized by soil bacteria. Organic and ammonia nitrogen are taken up by plants, nitrified by soil bacteria, lost to the atmosphere through denitrification, and minimally leached into the groundwater. Phosphorus and other constituents are adsorbed in the soil profile and taken up by plants. Properly designed and operated land treatment systems produce a percolate water of high quality and thus protect ground and surface water resources.

The overburdened/oversaturated LAS at Ten Cate’s Molena Plant, however, results in point source discharges of pollutants to waters of the United States and waters of the State of Georgia via, *inter alia*: (1) direct overland dry weather discharges of still polluted industrial wastewater from spray fields to adjacent waters of the United States, including Elkins Creek, Spring Creek, branches thereof, and adjacent wetlands, via ditches, runnels, seeps, and other discrete conveyances; (2) direct overland wet weather discharges of collected and concentrated stormwater containing still polluted industrial wastewater from spray fields to adjacent waters of the United States, including Elkins Creek, Spring Creek, branches thereof, and adjacent wetlands, via these ditches, runnels, and other discrete conveyances; and (3) continuous discharges of still polluted industrial wastewater to groundwater with a direct hydrological connection to adjacent waters of the United States, including Elkins Creek, Spring Creek, branches thereof, and adjacent wetlands.

The pollutants in these point source discharges of still polluted industrial wastewater from the Molena Plant include, but are not limited to, high levels of sodium and salts thereof, calcium and salts thereof, potassium and salts thereof, nitrates, and conductivity as well as elevated levels of total nitrogen, ammonia, total phosphorous, Kjeldahl phosphorus, arsenic, chromium, copper, nickel, zinc, magnesium, aluminum, iron, barium, vanadium, and lead, resulting in among other impairments elevated chemical oxygen demand, hardness, and conductivity.

Under Section 301(a) of the Clean Water Act (“CWA”), 33 U.S.C. § 1311(a), these point source discharges of these pollutants into the aforementioned waters of the United States requires a National Pollution Discharge Elimination System (“NPDES”) permit under Section 402 of the CWA. Each such discharge without an NPDES permit is a separate violation of the CWA.

Notice of Intent to Sue Ten Cate Protective Fabrics & Royal Ten Cate (USA), Inc.

Page Four of Eight

April 20, 2016

These discharges are also an ongoing public and private nuisance and ongoing trespasses causing damages to the aforementioned properties of Michael Cox, Cliff Granville Moore, Shelby C. Moore, and Sean P. Draime adjacent to the LAS at the Molena Plant.

**B. Persons Responsible for Violations**

Southern Mills, Inc. (d/b/a Ten Cate Protective Fabrics) owns and operates the Molena Plant and its LAS. Royal Ten Cate (USA), Inc. owns Southern Mills, Inc. and also owns, controls, and directs the operations of the Molena Plant and therefore has also caused the unpermitted discharges.

**C. Location and Dates of Violations**

The locations of the violations are the locations of the ongoing point source discharges of the aforementioned pollutants and other pollutants from the LAS at the Ten Cate dyeing and finishing plant at 1683 Lawrence Road, Molena, GA 30258, into adjacent waters of the United States, including Elkins Creek, Spring Creek, branches thereof, and adjacent wetlands. The locations include, but are not limited to, the following specific locations:

1. Direct overland dry weather discharges of still polluted industrial wastewater containing some or all of the aforementioned pollutants from spray fields to "Cox Branch" of Elkins Creek and adjacent wetlands of Elkins Creek via a ditch and other discrete conveyances located approximately at N32.97318, W84.49788 on the Cox Property on numerous dates including, but not limited to, 3/21/15, 3/23/15–4/11/15, 4/16/15, 4/18/15–4/28/15, 4/30/15–6/12/15, 7/1/15, 7/4/15, 9/9/15, 9/12/15, 9/17/15–9/18/15, 10/1/15, 10/7/15–10/9/15, 10/12/15–10/13/15, 10/15/15–10/18/15, 11/12/15, 11/15/15–11/18/15, 11/21/15–11/25/15, 11/27/15–12/1/15, 12/7/15–12/13/15, 12/15/15–12/17/15, 12/19/15–12/21/15, 1/7/16–1/8/16, 1/11/16–1/14/16, 1/17/16–1/20/16, 1/25/16–1/26/16, 1/29/16–1/31/16, 2/2/16, 2/5/16–2/10/16, 2/12/16–2/15/16, 2/17/16–2/22/16, and 2/25/16–3/3/16;

2. Direct overland dry weather discharges of still polluted industrial wastewater containing some or all of the aforementioned pollutants from spray fields to "Cox Branch" of Elkins Creek and adjacent wetlands of Elkins Creek via a runnel and other discrete conveyances located approximately at N32.97333, W84.50198 on the Cox Property on numerous dates including, but not limited to, 8/24/15–8/26/15, 9/9/15, 9/12/15, 9/15/15–9/18/15, 9/22/15–9/24/15, 9/28/15, 10/1/15, 10/8/15, 10/12/15–10/23/15, 10/26/15, 10/29/15–10/31/15, 11/12/15–11/13/15, 11/15/15–11/17/15, 11/12/15–11/25/15, 11/27/15–12/1/15, 12/11/15–12/16/15, 12/20/15–12/21/15, 1/7/16–1/8/16, 1/20/16, 1/25/16–1/26/16, 1/30/16–1/31/16, 2/2/16, 2/6/16–2/15/16, 2/17/16–2/21/16, and 2/26/16–3/2/16;

Notice of Intent to Sue Ten Cate Protective Fabrics & Royal Ten Cate (USA), Inc.

Page Five of Eight

April 20, 2016

3. Direct dry weather discharges of still polluted industrial wastewater containing some or all of the aforementioned pollutants from spray fields to "Cox Branch" of Elkins Creek and adjacent wetlands of Elkins Creek via groundwater with a direct hydrological connection from the spray fields to these waters of the United States located approximately at N32.97318, W84.49788 on the Cox Property on dates including, but not limited to, 10/16/15, 10/18/15, 11/15/15, 11/22/15, 11/23/15, 11/28/15, 12/7/15, 12/11/15–12/12/15, 12/14/15, 1/20/16, 1/31/16, 2/14/16, and 2/19/16;

4. Continuous direct overland dry weather discharges of still polluted industrial wastewater containing some or all of the aforementioned pollutants from spray fields to "Hardy Branch" of Spring Creek via seeps and other discrete conveyances located approximately at N32.95942, W84.49041 on the Draime Property during periods including, but not limited to, Spring 2015 to present; and

5. Direct overland wet weather discharges of collected and concentrated stormwater containing still polluted industrial wastewater containing some or all of the aforementioned pollutants from spray fields to Elkins Creek, Spring Creek, branches thereof, and adjacent wetlands, via the above ditches, runnels, and seeps on dates including, but not limited to, 4/12/15, 4/14/15, 4/17/15, 4/19/15, 4/25/15, 4/29/15, 5/3/15, 6/1/15, 8/18/15, 8/29/15, 8/30/15, 9/8/15, 9/28/15, 10/10/15, 11/1/15, 11/2/15, 11/5/15, 11/8/15–11/9/15, 11/18/15, 12/2/15, 1/27/15, 2/3/16, and 2/22/16.

*See Ex. A (GPS coordinates of approximate locations of violations).* Based on information and belief, these unpermitted discharges have been continuous during at least the past eight years. Evidence and records of the additional locations and dates of unpermitted discharges from the overburdened and oversaturated LAS at the Molena Plant are maintained by Ten Cate. Based on information and belief, these unpermitted discharges, continue up to the date of this letter, are ongoing, and will continue after the date of this letter and the subsequent filing of a lawsuit.

### **III. Remedies Sought**

Section 505(b) of the CWA, 33 U.S.C. § 1365(b), requires that, sixty days prior to filing a civil suit for violations of the CWA, a plaintiff must give notice of intent to sue. If the violations set forth herein are not remedied within sixty days, and the nuisance and trespasses not abated, Flint Riverkeeper and the local property owners will file a CWA citizen suit against Ten Cate for ongoing violations of the CWA and ongoing nuisance and trespasses.

Such a lawsuit would include a request for the Court to: (1) enjoin further violations; (2) require the cessation and remediation of the pollution; (3) impose civil penalties of at least \$37,500 per violation per day, payable to the U.S. Treasury; (4) award monetary damages and punitive damages under state law claims for pollution of the Cox and Draime Properties and violations of other property rights; and (5) award attorneys' fees and expenses of litigation under the CWA and relevant state law including O.C.G.A. § 13-6-11.

#### IV. Conclusion

If you have reason to believe that Ten Cate's LAS at the Molena Plant is exempt from or has complied with the Clean Water Act, or otherwise has a defense to liability, please advise us of the specific basis for your exemption, compliance, or defense. If you contend that we have not properly identified the proper parties or have failed adequately to serve this notice letter, please advise us of the specific basis for your contention.

During the 60-day notice period, we are available to discuss effective remedies, corrective actions, and the possibility of resolving this matter without litigation, as well as any facts you believe are incorrectly set forth in this notice letter and other relevant facts and data. Please feel free to contact the undersigned counsel at the contact information below.

Thank you for your prompt attention to this matter.

Sincerely,

Donald D.J. Stack  
Tyler J. Sniff
